- **Pesco noce**
- **Susino**
- **Frutti vari**
- **Uva da tavola**

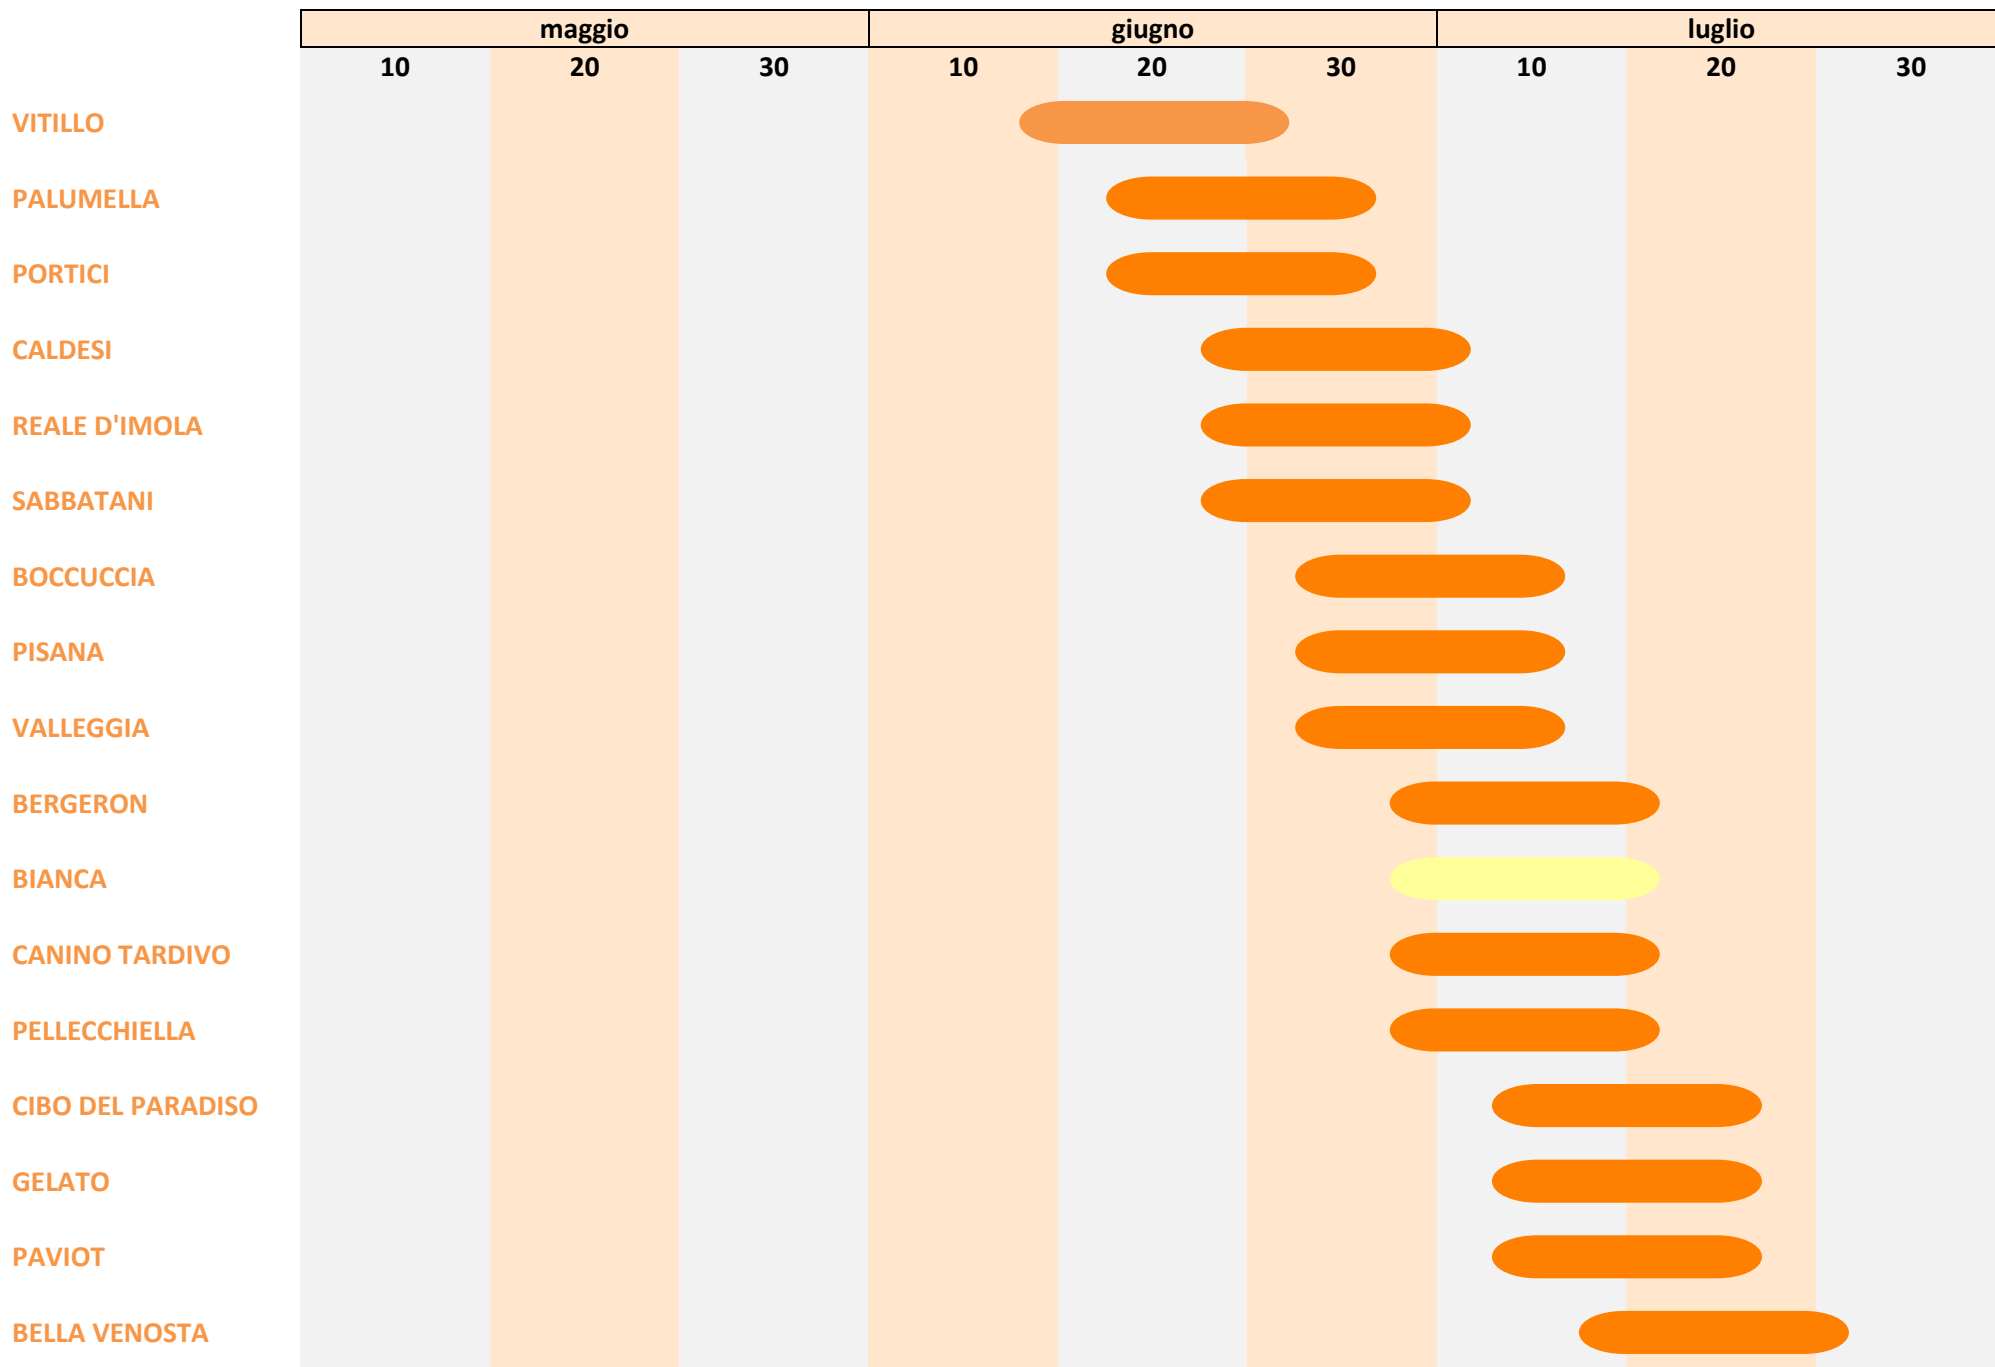

Note:

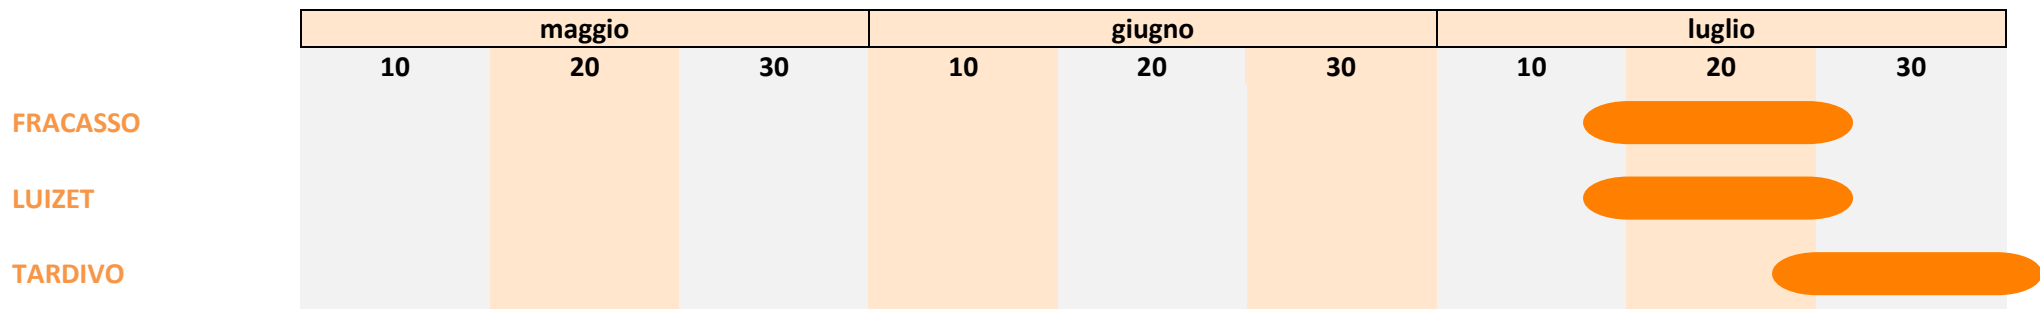

- Le epoche di maturazione rappresentate nelle seguenti tabelle, sono tratte da osservazione diretta in vivaio, da riviste specializzate e da libri di frutticoltura e sono valori medi, riferiti all'Italia centrale.
- L'effettiva epoca di maturazione può anticipare (o ritardare) anche fino a dieci giorni, a seconda di vari fattori: luogo di piantagione, clima, esposizione del terreno, andamento stagionale dell'annata, tecnica colturale, etc...
